of Oil & Gas  
Producers

# Standards Solution

## What it is and how to use it

March 2014

Feb 2016 update

# What is IOGP?

- The International Association of Oil & Gas Producers (IOGP)
- IOGP works on behalf of the world's oil & gas exploration and production (E&P) companies to promote safe, responsible, and sustainable operations.
- Starting from some 14 members in 1974, membership has grown to more than 80, including over 50 operating companies around the globe.

# Base region of Members

## North America

- |                   |                 |
|-------------------|-----------------|
| Anadarko          | IADC            |
| API               | IAGC            |
| Baker Hughes      | Kosmos Energy   |
| CAPP              | Marathon Oil    |
| Chesapeake        | Nexen Inc.      |
| Chevron           | Noble Energy    |
| CNR International | NunaOil         |
| CanocoPhillips    | Pemex           |
| Devon Energy      | Schlumberger    |
| ExxonMobil        | Suncor          |
| Hess Corporation  | Talisman Energy |
| Husky Energy      |                 |
- 36 members active in region**

## Europe

- |                  |                     |
|------------------|---------------------|
| Addax            | MOL plc             |
| Afren plc        | NOGEP               |
| Assomineraria    | Norwegian Oil & Gas |
| BG Group         | Oil & Gas UK        |
| BP               | OMV                 |

|----------------|-----------------|
| ADNOC          | Qatar Petroleum |
| Dolphin Energy | RasGas          |
| Dragon Oil     | Saudi Aramco    |
| Kuwait Oil     | Yemen LNG       |
- 36 members active in region**

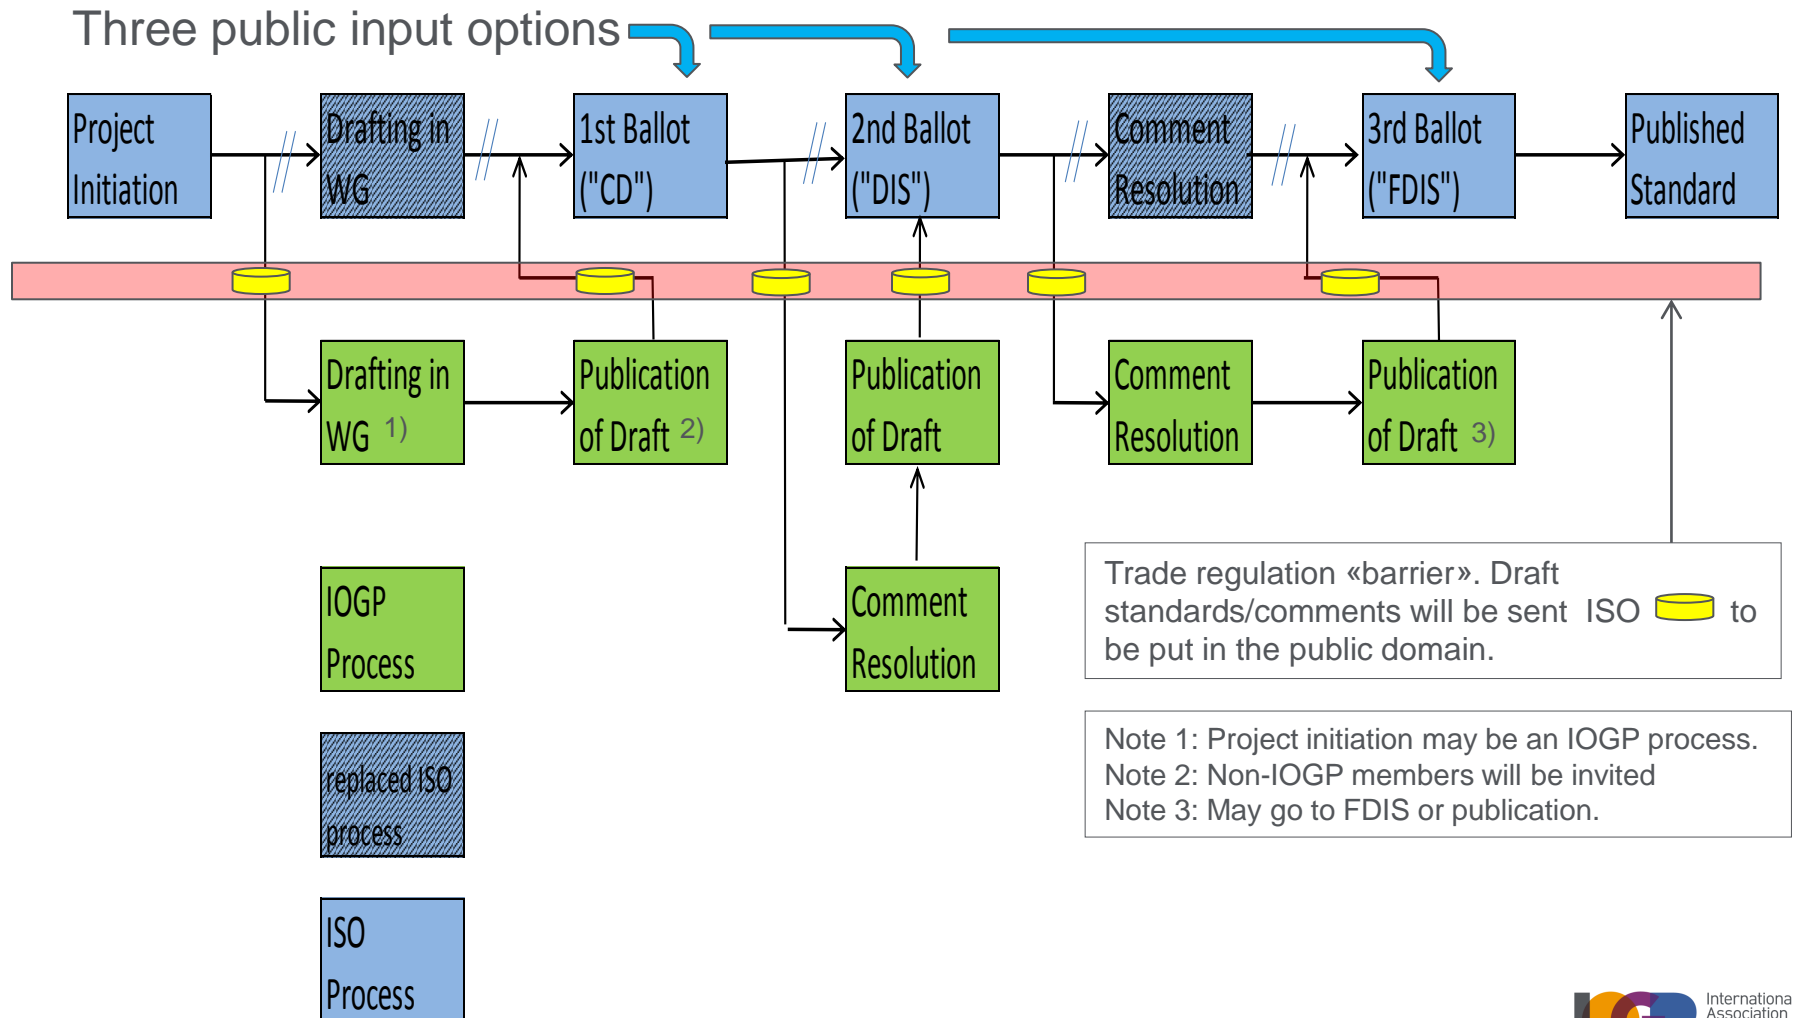

# Introduction

- IOGP's Standards solution (replacing Interim Solution) launched March 2014 continues to host technical work of ISO/TC67 under Association auspices and in accordance with trade regulations, including observing complete confidentiality.
- IOGP's Standards solution builds on ISO/IEC Directives and IOGP's liaison status with TC67.
- It has the approval of IOGP's Management and Legal Committees.
- Objective: Progress the technical work on drafts that will be balloted and published by ISO as ISO standards.

# Standards solution - general

- IOGP invites ISO/TC67 Work Groups (WG) and Project Teams (PT) to work under the Association's umbrella.
- Representatives from all parts of industry are invited, except from those countries under EU and US sanctions.
- IOGP WG/PT will develop draft deliverables based on documents in ISO/TC67 work program.
- IOGP provides drafts to ISO for ballot/publication.
- IOGP can propose new work.

# IOGP Standards solution compared to ISO route (simplified) + Additional input

# Procedure for WG/PT

- As simple as possible !
- Do it mainly as in ISO, however technical discussion takes place exclusively and confidentially in IOGP to eliminate concerns about technical assistance and sanction-breaking technology transfer.
- Use IOGP Supplementary procedure, templates for agenda, attendance lists, and minutes.
- File documents of WG/PT under the secure password protected IOGP- provided ShareFile folders.
- Chairperson to monitor the WG/PT members list to ensure no sanction countries are included.
- IOGP checks members' list.

# Tools box, contact etc.

The «tools box» for the WG/PT is available in IOGP ShareFile:

- IOGP Supplementary procedure
- Presentation material
- Template for members' list
- Template for calling meetings
- Template for meeting agenda & minutes
- Template for new work item proposals
- IOGP contact details
